

CELEBRATING
UNIQUENESS

ARGUTA
INTERNATIONAL SCHOOL

INSEPUSHON

Do what you love.

The concept of Arguta originated from the realization that every child is unique, and requires a personalized curriculum which can unleash their incredible potential. Our educational approach empowers students to hone their skills by letting them follow their true passion with our expert guidance.

PHILOSOPHY

Edu-Vation, where Education meets Innovation.
At Arguta International School, we understand that each of our students has unique talent. We believe that learning can only be fostered from a feeling of mutual respect and compassion, and we maintain those values in everything we do. Our unique approach provides students with the best support system that will help them to lead a successful path of their choices.

VISION

We aspire to build an innovative process to determine future talent needs for the next generation of innovators, explorers, inventors and pioneers who can pursue their dreams beyond boundaries.

MISSION

To create a program that is engaging and responsive for every student. We strive to make learning fun by helping students accomplish challenges and exceed their goals, in a caring and supportive environment.

Amresh Dubey
Director,
Arguta Educational foundation

An MBA graduate from CUIIM Bangalore is serving in the field of education for the last 6 years, embarking on the journey as visionary youth of India. He is the thoughtful brain behind the concept of AIS kids to nurture talent in AEF.

OUR UNIQUE METHODOLOGY

Children are engaged in a continuous process of learning about themselves and their world. As they mature, the world expands from their home and parents to siblings to peers and, eventually, to people and places they know about but may never actually see. In order to function successfully in society, children must learn to know themselves, to achieve self-identity. They must also learn about social interaction and recognize ways in which they are alike as well as different from others. Those are psychosocial ways of thinking. At the same time, children are experiencing tremendous growth in cognitive abilities. Development continually goes on all three of those areas: thus childhood is a crucial stage of life.

Physical Stages of Child Development

Infancy

Birth - 18 months

Walking

Simple language

Attached to parents

Early & Middle Childhood

19 months - 6 years

Language well established

Knows gender differences

Group play

Ends with readiness for schooling

Late childhood

7 - 13 years

Many cognitive processes become adult except in speed of operation

Team play

Adolescence

14 - 18 years

Attains highest level of cognition

Independence from parents

Human relationships

UNIQUE CURRICULUM FOR UNIQUE CHILDREN

A child's play is not simply a reproduction of what he has experienced, but a creative reworking of the impressions he has acquired."

Lev Vygotsky

ARGUTA LAND

Learning Studios Nursery to Kg II

The carefully designed curriculum focuses on the holistic development of the child with three types of activities named **Seed Packets**, **Puddle Story Club**, and **TotPlay Club**. The specially designed Seed Packets are fun-filled knowledge boxes that helps to stimulate thought processes, solving problems to make learning easy and fun. Puddle story club is based on new generation augmented reality, designed to recognize and express feelings while helping the child to develop a social and emotional relation with helping to develop receptive language. Tot play club is designed for kids to unfold sensory motion while developing fine and motor skills

The Best way to predict future is to create it.”

5 Activity Lab Approach

As the children grow, it becomes important that their skillset grow as well, however in right direction. We at Arguta International School identify one skill every month that we like to impart in children. According to their age group. We infuse these skills among students with the help of various activities and workshops. This method makes learning fun for the students and inspires them to work towards their real talent.

FACILITIES

A good concept without execution is like soul without body. Thus, be it having the balanced **Teacher to Student ratio of 20:1** or equipping the curriculum with world class food and sports facilities for the holistic development of children, we have paid attention to every bit of it.

120000 square feet of **Centrally Air Conditioned Space**

Smart Classrooms equipped with Advanced Technology
